#### Marble Tours

#### Take a virtual tour of the world

## Introduction

- What is a tour?
- How are they represented technically?

#### Serial vs Parallel Tracks

## "Item"s that make up a tour

- Serial Tracks
  - FlyTo items
  - Wait items
  - TourControl items
- Parallel Tracks
  - SoundCue items
  - AnimatedUpdate items

# The Tour Widget

This is what a TourWidget looks like.

The functionalities will be discussed in the demo that will follow next.

## Create video files from tours

We can create video files directly from the Tour widget
